Regal™ M2

Extra-Low Dispersion (ED) glass meets our proprietary XLT fully multi-coated optics for bright images with true colour, virtually free of chromatic aberration. Set the zoom eyepiece in the perfect viewing position using the 360° rotating tripod mount with detents. Then, rapidly bring subjects into focus with the dual-focus mechanism. A stay-on carrying case provides protection, even when your Regal M2 is mounted on a tripod.

KEY FEATURES

- + ED Objective Lens: Minimizes chromatic aberration, accurate colour reproduction, increased resolution and contrast
- + XLT Coatings (Fully Multi-Coated Optics): Proprietary XLT lens coatings maximize light transmission through the optical path for brighter images and increased resolution and contrast
- + Magnesium Alloy Body: This material is strong and durable, but lighter weight than traditional aluminium alloy housings
- + Dual focus: Course focus for rough adjustment and fine focus for detailed adjustment. New quicker focusing mechanism
- + Rotating tripod mount with detents: Place the orientation of the eyepiece in the best viewing position for application

ITEM CODE	MODEL	TYPE	APERTURE	MAGNIFICATION	OPTICAL COATING	WEIGHT	SRP INC. VAT

TRAILSEEKER™

The Trailseeker spotting scope series offers an amazing viewing experience in a rugged and durable rubber armoured housing that is fully waterproof and Nitrogen filled. The optical system with proprietary XLT multi-coatings renders high resolution images with outstanding contrast while the dual focus mechanism allows you to get subjects in focus quickly and then fine tune the image. The Trailseeker offers numerous features normally found only in much higher priced spotting scope models, including a sliding sunshade, rotating tripod mount, and interchangeable eyepiece. The Trailseeker is the perfect companion for anyone who enjoys the outdoors.

KEY FEATURES

- + Celestron's proprietary XLT fully multi-coated optics increase light transmission through the optical path to deliver crisp, high contrast images
- + Focus on a subject quickly, then fine tune the image using the dual focus mechanism with course and fine adjustments
- + Get the whole picture using the rotating tripod mount. This mount rotates a full 360° and allows the eyepiece to be set in any viewing position
- + Get close to the action with a zoom up to 67x magnification (100mm) or see the widest field of view at 16x (65mm)
- + Perfect for those who want performance in an easy-to-carry package

HUMMINGBIRD™

The first truly “micro” spotting scope, Celestron’s new Hummingbird Micro ED and non ED spotter models will easily fit into your pocket, shoulder bag, or carry-on luggage. This spotting scope is perfect for traveling birders and outdoor enthusiasts as a lightweight alternative to a full-size spotter. Fully multicoated and nitrogen purged, ED glass for bright, clear views, an adjustable zoom lens, tripod ready, and with the included carrying case and strap, you can keep moving with Hummingbird.

KEY FEATURES

- + Easily carried in vest or coat pocket, in belt pack, or shoulder bag
- + 9-27x magnification range spans binoculars and spotting scopes
- + “Birder-friendly” close focus distance: 10 ft. / 3m close focus satisfies birding field optic requirements
- + Waterproof / Nitrogen filled – Protected against wet weather, humid conditions, and other environmental challenges

ED MODEL ONLY

- + ED lens optical system provides sharp, clear images with vivid, well-managed colour

CATADIOPTIC

It doesn't get much more portable than these grab-and-go spotting scopes. A great first optic that's easy for beginners to use, our Mini Maks also work well on the shooting range. They include a tabletop tripod and carrying case, so you can pack them up for easy transport. The Schmidt-Cassegrain and Maksutov-Cassegrain optical models of these popular spotting scopes mean you get lots of light gathering ability in a compact package. Plus, you can add any standard 1.25" astronomical eyepiece for high magnification views. Both spotting scopes fit easily in a pack, and can even do double duty as telescopes for night time viewing!

KEY FEATURES

- + Maksutov-Cassegrain optical design with multi-coated optics
- + Waterproof
- + 45° eyepiece
- + 1.25" eyepiece adapter allows usage of any 1.25" eyepiece
- + Table top tripod with C70 & C90 models
- + Soft carrying case
